Photo Booth Lite

P: (630) 948 7779

Assembling the Booth

The Photo Booth Lite can be assembled in just 10 minutes.

1. Open case, revealing the two pedestal pieces.

2. Take pedestal pieces out of case and connect them with the two interconnecting lip pieces.

3. Using the screws and screwdriver in the red case, secure the four screws (two on each side) to keep them in place.

4. Carefully move the head piece to the side and remove the next foam layer to reveal the baseplate.

Assembling the Booth

1. Remove the baseplate...

2. Connect the baseplate by putting it on the completed pedestal piece (make sure it's on the bottom and aligning up with the four screw holes.)

3. Secure screws in the bottom of baseplate

4. Flip the pedestal back over so it is right side up.

Assembling the Booth

1.

Unscrew the screws to remove back plate of head piece.

2.

Inside, make sure the two power plugs for the ring light are connected into the power strip.

3.

Carefully place and screw in the head piece on top of pedestal (Be sure pieces are aligned with the four screw holes.)

DO NOT TRY TO BALANCE HEAD PIECE ON PEDESTAL BEFORE SECURING THEM TOGETHER.

4.

Find the end of the power strip cord and plug it into extension cord. Run the extension cord through middle of pedestal and out the bottom. Connect to nearest outlet.

5.

Turn on Ipad by holding down the button on the top until the screen lights up.

Assembling the Booth

1.

Unlock the home screen by entering the passcode 0485.

2.

Connect to wifi through the “Settings” app.

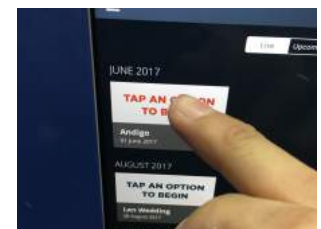

3.

Open photo booth program and select your event from the list (If you do not see your event please contact us).

4.

From there, choose the photo booth button in the bottom right.

5.

Have fun!
